**REPORT OF THE GENERAL DIRECTOR ON BUSINESS
PERFORMANCE IN 2024 AND BUSINESS PLAN FOR 2025**
(Presented at the 2025 Annual General Meeting of Shareholders)

PART I
BUSINESS PERFORMANCE IN 2024

I. Assessment of the 2024 Business Environment

1. General Context

In terms of global and regional developments, the political and economic landscape in 2024 remained complex, impacted by ongoing conflicts such as the Russia–Ukraine war and the Israel–Hamas confrontation. Demand for electrical equipment in the U.S. and several other markets surged, surpassing the production capacities of many suppliers of materials and components.

Domestically, the economy began to recover, with GDP growth exceeding 7%. The Government issued various policies to promote the development of national power sources and grid infrastructure.

2. Advantages, Difficulties, and Challenges in Business Operations in 2024

a. Advantages

- The Ministry of Industry and Trade, the Ministry of Science and Technology, and Vietnam Electricity (EVN) provided consistent direction and support in resolving difficulties and obstacles.

- The collective solidarity, intelligence, and shared commitment of EEMC's staff were key to achieving common goals.

- In the third and fourth quarters, EVN-affiliated units accelerated investment and commissioning of projects, enabling the Corporation to sign contracts and deliver equipment in time to record revenue in 2024.

- Newly invested technological equipment was promptly put into operation, contributing to increased productivity, improved product quality, and enhanced competitiveness.

- The successful manufacturing of the 500kV–300MVA power transformer—recognized as one of the top 10 significant achievements in the electricity sector—was widely reported in mass media, significantly strengthening EEMC’s brand reputation both domestically and internationally.

b. Difficulties and Challenges

- Although the implementation plan for Power Development Plan VIII has been approved, few new projects have been initiated, leading to a limited market size.

- Units of the National Power Transmission Corporation (NPT) prioritized the implementation of the 500kV transmission line (circuit 3), causing several 220kV transformer procurement projects to be postponed or delayed.

- Shortages in material and component supply disrupted production schedules.

- Market competition continued to intensify. Currently, there are over 30 domestic manufacturers of distribution transformers, 5 manufacturers of 110kV transformers, and it is anticipated that 1 to 2 more manufacturers of 220kV transformers will enter the market in the near future.

II. Business Performance Results in 2024

1. Key Business Performance Indicators of the Parent Company

Unit: VND million

TT	Indicator	Year 2024			% Achievement vs. 2023
		Plan	Achievemance	% Achievement vs. Plan	
1	Total Revenue	1.906.000	2.067.868,7	108,49%	128,47%
2	Profit After Tax	80.800	142.524	176,39%	242,78%
3	Propóed Cash Dividend Payment (%)	20			

(Figures based on the Audited Separate Financial Statements for the Fiscal Year 2024)

2. Operational Review

2.1. Achievements

In Business Operations:

- Continued to strengthen product promotion and trade marketing through more diversified approaches.

- Successfully signed the first export contract for a 70 MVA–132 kV power transformer to Australia and initiated market development activities in other international markets.

- Collected several previously doubtful debts, thereby improving cash flow for business operations.

- Despite increasing market competition, EEMC maintained its market share for 110 kV power transformers and expanded its market share for 220 kV transformers.

In Investment, Engineering, and Production:

- Completed investments in upgrading the assembly and winding workshops; newly built a 500 kV testing laboratory; and procured several critical pieces of technological equipment to enhance productivity and product quality.

- Officially commissioned the enterprise-wide resource planning system, enhancing the Corporation's overall management capacity.

- Successfully manufactured a 500 kV–300 MVA power transformer, affirming EEMC's capability in designing and producing ultra-high-voltage electrical equipment and opening new growth opportunities for the coming years.

- Continuously reviewed and improved production processes and technologies, contributing to improved product quality and labor productivity.

- Proactively sought out new sources of supply and negotiated with customers to switch materials and components to meet order schedules, thereby contributing to the fulfillment of the Corporation's business plan.

In Labor Organization and Financial Management:

- Reviewed and adjusted wage norm regulations to ensure appropriateness and alignment.

- Fully implemented policies on salary increases, promotions, and employee benefits.

- Revamped the assessment and appointment process for managerial personnel to meet current business requirements.

- Secured sufficient capital for production and business operations at reasonable interest rates, helping to reduce financial costs for the Corporation.

PART II

BUSINESS DIRECTION AND PLAN FOR 2025

I. Outlook and Context for 2025

1. Favorable Factors:

Vietnam's economy is forecasted to grow by 8%, with continued strong demand for electricity across industrial, commercial, and residential sectors. The expansion of industrial parks across provinces and cities will drive further

investment in power grid infrastructure. Nhu cầu thiết bị điện trên thế giới tăng cao, Global demand for electrical equipment remains high, generating growth opportunities for the sector.

2. Challenges:

The year 2025 is expected to continue witnessing complex developments in global political and economic conditions. New U.S. government policies may cause fluctuations in foreign exchange rates and disrupt material supply chains, which would adversely affect the Vietnamese economy in general and the Corporation's business operations in particular.

The supply of materials and components remains tight, with prolonged delivery times, directly impacting the progress of urgent projects.

Market competition is becoming increasingly fierce. There are currently over 30 domestic manufacturers of distribution transformers, 5 manufacturers of 110kV transformers, and potentially 2–3 more manufacturers of 220kV transformers expected to enter the market soon.

II. 2025 Business Plan Targets for the Parent Company

No.	Item	Unit	2025 Target
1	Total Revenue	VND million	2.362.000
2	Profit After Tax	VND million	158.000
3	Dividend Payment		20%

III. Solutions for Achieving the 2025 Business Plan Targets

In response to anticipated difficulties in market demand, material prices, and supply sources, the Executive Board of the Corporation will implement a series of coordinated solution groups as follows:

1. Solutions in Design and Investment

+ Accelerate the research and development of new products with consultation from international experts, while continuously improving the design of traditional products.

- + Expedite the investment in key equipment such as: a new epoxy spray chamber, automatic oil filtering and filling systems, vacuum pumping stations, silicon steel cutting machines, and various testing equipment to complete production lines and enhance productivity and product quality.

2. Production Management Solutions

- + Implement solutions to overcome difficulties in sourcing materials for production.

- + Maintain effective 5S practices across the Corporation.

- + Review labor planning and optimize the use of human resources and equipment to increase productivity and quality.

- + Rotate, train, and recruit to strengthen the Corporation's pool of high-quality personnel.

- + Continuously improve and rationalize production processes; optimize the use of materials, energy, and other production costs.

3. Business and Market Solutions:

**REPORT
OF THE BOARD OF DIRECTORS ON 2024 PERFORMANCE AND 2025
STRATEGIC ORIENTATION**

(Presented at the 2025 Annual General Meeting of Shareholders)

I- Performance of the Board of Directors in 2024:

1. Assessment of the Corporation's Operations in 2024:

In 2024, the Corporation faced significant challenges amid a volatile global political and economic environment, driven by geopolitical conflicts and intense international market competition. These factors led to shortages in supply and soaring input material prices, directly affecting the Corporation's business operations. Nevertheless, thanks to the solidarity and strong determination of the leadership and workforce, the Corporation successfully overcame these difficulties, closely following and effectively implementing the core objectives and tasks assigned by the General Meeting of Shareholders. As a result, business performance in 2024 exceeded the planned targets. Specifically: (i) Consolidated revenue reached VND 2,255.8 billion, achieving 107% of the 2024 plan; (ii) Profit before tax amounted to VND 180.4 billion, fulfilling 179% of the 2024 plan.

Throughout the year, the Corporation continued its strict cost-saving measures and efforts to enhance its management capacity.

2. Activities of the Board of Directors:

- Board Composition: The Board of Directors consists of five (05) members, as follows:

Mr. Nguyễn Xuân Nam	- Chairman of the Board
Mr. Nguyễn Trọng Tiểu	- Vice Chairman of the Board
Mr. Nguyễn Vũ Cường	- Member of the Board and General Director

Mr. Nguyễn Khắc Cường - Member of the Board

Mr. Đặng Phan Tường - Member of the Board

Among them, four (04) members are non-executive.

- Board Operations:

+ The Board of Directors operated in compliance with applicable laws, the Company's Charter, and its internal governance regulations. In 2024, the Board:

+ Convened and successfully organized the 2024 Annual General Meeting of Shareholders on June 21, 2024, and an Extraordinary General Meeting on November 14, 2024.

+ Ensured strict compliance with regulations on financial reporting, annual reporting, and other disclosures as required by law.

+ Supervised the implementation of resolutions and decisions of the General Meeting and the Board, and monitored the management activities of the Executive Board in business operations.

- The Board held 22 meetings in 2024 and issued resolutions and decisions strictly within its authority as defined by the Charter and internal governance regulations. All resolutions and decisions were approved with 100% consensus among attending members;

- The total remuneration of the Board of Directors in 2024 amounted to VND 2,361.6 million.

- In 2024, the parent company conducted key transactions with related parties, including sales of VND 1,342.6 billion and purchases of VND 164.4 billion.

3. Implementation and Oversight of the Charter, Resolutions of the General Meeting, and Board Resolutions:

- The Board of Directors proactively performed its duties in accordance with the Corporation's Charter and the 2024 AGM Resolution, ensuring full compliance with legal requirements.

- The Board regularly reviewed and supported the Executive Board in managing production and business operations.

- It oversaw and guided the Corporation's information disclosure efforts, aiming to ensure transparency and timeliness in compliance with applicable

laws. Shareholder management was also carried out in strict accordance with the law and the Company's Charter.

Board Evaluation of the Executive Board and Management Personnel:

The Board of Directors highly commends the continued efforts and contributions of the Executive Board and all levels of management in implementing the Corporation's 2024 business plan. Despite ongoing market challenges, the Executive Board demonstrated proactiveness, creativity, and flexibility in management, consistently adhering to the core objectives set by the General Meeting and the Board. The Executive Board timely implemented governance solutions appropriate to real-world conditions, ensuring stable and effective business operations.

Thanks to decisive leadership and scientific management, the Corporation not only maintained solid business performance—with strong revenue results—but also preserved and enhanced its capital base, ensured stable employee incomes, and fully met its financial obligations to the State. These achievements significantly contributed to elevating the Corporation's reputation and position in the market.

II- Board of Directors' Operational Plan for 2025:

The year 2025 is expected to continue presenting global political and economic complexities. New policies adopted by the United States government may cause fluctuations in exchange rates and disruptions to raw material supply chains, thereby impacting Vietnam's economy as a whole and the Corporation's production and business activities in particular. With a firm commitment to transforming challenges into motivation, the Board of Directors outlines the following key directions for the Corporation's operations:

- Closely direct, supervise, and support the Executive Board in implementing the resolution of the 2025 Annual General Meeting of Shareholders;
- Approve investment strategies for advanced technological equipment and machinery to enhance production capacity and product quality, while positioning the Corporation at the forefront of scientific research, technological development, and innovation;
- Develop policies aimed at strengthening, supplementing, and improving human resources to meet the growing demands of business operations;
- Enhance internal control, supervision, and risk forecasting to support comprehensive enterprise governance.

The Board of Directors looks forward to continued support, cooperation, and constructive engagement from our valued shareholders.

The above constitutes the Board of Directors' report on 2024 performance and the operational plan for 2025, respectfully submitted to the Annual General Meeting of Shareholders for review and approval../.

**ELECTION REGULATIONS
FOR MEMBERS OF THE BOARD OF DIRECTORS (TERM 2025–2030)
DONG ANH ELECTRICAL EQUIPMENT CORPORATION – JSC**

To ensure the rights of shareholders and avoid confusion during the election of members to the Board of Directors (BOD) for the 2025–2030 term, the General Meeting of Shareholders (GMS) is respectfully requested to approve the following election regulations:

I. PRINCIPLES OF BOD MEMBER ELECTION

- Number of BOD members to be elected: **01 member**
- Each shareholder has a total number of votes equal to the number of shares they represent multiplied by the number of BOD members to be elected.
- Shareholders may allocate all of their votes to one or several candidates.
- The total number of votes allocated to candidates must be **equal to or less than** the total number of votes the shareholder possesses.
- If a shareholder does not wish to vote for a candidate, they shall leave the vote section blank or cross it out (X).
- Shareholders may vote for candidates with different numbers of votes according to their level of confidence in each.

II. ELECTION PROCEDURES

1. Ballot papers:

- Ballots for BOD election: **yellow color**.
- The ballot must state the full name of the shareholder, ID/Passport number, number of shares represented, total number of votes, list of candidates, and must bear the official seal of EEMC in the top-left corner.

2. Voting method:

- Shareholders shall clearly write the number of votes allocated to each candidate in the corresponding field.
- The total number of votes must not exceed the shareholder's total eligible votes. If exceeded, the ballot is invalid.
- If not voting for a candidate, the shareholder shall leave the field blank or mark an "X"; names of candidates may not be crossed out.
- Voting begins upon announcement by the Chairman or Head of the Vote Counting Committee and ends once the last shareholder has cast their vote.

Shareholders who do not participate in voting will have their shares excluded from the voting rights count for that specific election item.

- If a shareholder needs a replacement ballot (due to damage or errors), and has not yet submitted it to the ballot box or passed the deadline, they may return it to the Secretariat for exchange. Used ballots must be collected and submitted to the Chairman.

3. Example

Shareholder Mr. Nguyễn Văn X holds 10,000 shares and is voting to elect 2 members to the Board of Directors. Accordingly, Mr. X has a total of $10,000 \times 2 = 20,000$ votes. The shareholder may allocate all or part of his total votes to one or more candidates listed on the ballot. Any remaining votes (if any) may be left uncast. The total number of votes allocated to all candidates must not exceed the total number of votes stated in the shareholder's information section. The number of votes allocated to each candidate may vary depending on the shareholder's level of trust in each candidate.

4. Invalid ballots:

- Ballots not issued by the Organizing Committee;
- Ballots listing names outside the official candidate list;
- Ballots with total votes exceeding the shareholder's entitled votes;
- Blank ballots (no votes cast);
- Ballots with candidate names crossed out;
- Ballots with vote counts in percentage (%) format.

5. Valid ballots:

Ballots that do not violate any of the above rules. Ballots with total allocated votes less than the shareholder's entitled votes remain valid.

6. Election results:

- Candidates with the highest number of votes, ranked from top to bottom, will be elected until the required number of members is met.

- In the event of a tie and selecting all tied candidates would exceed the required number, the GMS shall proceed with a re-vote or supplementary election among those tied.

- For any re-vote, ballots of a different color shall be issued by the Vote Counting Committee.

No: 798/EEMC-BKS

Hanoi, 03 June 2025

REPORT OF THE SUPERVISORY BOARD
DONG ANH ELECTRICAL EQUIPMENT CORPORATION
(At the 2025 Annual General Meeting of Shareholders)

To: General Meeting of Shareholders

The Supervisory Board (SB) respectfully submits to the General Meeting of Shareholders its report on the business performance of the Corporation in 2024 and the supervision plan for 2025 as follows:

I. Activities of the Supervisory Board in 2024

In 2024, the responsibilities of the SB, consisting of three members, were executed in adherence to legal statutes and the EEMC Charter. Collaboration with the Board of Directors (BoD) led to the successful organization of the 2024 AGM; furthermore, the dismissal and replacement of a BoD member were enacted during the Extraordinary General Meeting, aligning with the EEMC Charter, the Law on Enterprises, and the Law on Securities.

Throughout the year, nine meetings were convened by the SB, accompanied by multiple review sessions. Consistent supervision of AGM resolution implementation was conducted, and the degree of adherence to prior SB recommendations was evaluated. The BoD's governance and the Executive Board's management underwent monitoring, and the fulfillment of public disclosure and reporting obligations for a large public company, as mandated by legal requirements, was ensured.

Coordination and proposal of the 2024 financial statement audit firm for shareholder approval were undertaken by the SB. Oversight of the independent audit, review of quarterly financials, and appraisal of both semi-annual and annual financial statements were also conducted.

Despite the fulfillment of planned responsibilities and reporting duties in 2024, the absence of full-time members presented obstacles, as all duties were managed by part-time members. The time management efficiency and effectiveness of SB operations at EEMC was thus affected.

II. Supervision of EEMC's Operations

In assessing the fiscal year 2024, a sales and service revenue of VND 2,052 billion was registered by the parent company, signifying the achievement of 107.6% of the predetermined annual target. An after-tax profit of VND 142.5 billion was realized, thereby exceeding the intended plan by 76.4%. A return on equity of 24% was demonstrated, surpassing the GMS-established benchmark of 21.4%. Despite continuous fluctuations in electrical material markets and an increase in input expenditures, a stable gross profit margin was upheld by the Executive Board, and financial expenditures were effectively managed; notably, interest payments experienced a 33% reduction when contrasted with the preceding year.

Alongside the favorable profit outcomes, certain deficiencies with potential impacts on the sustainability of corporate finance were identified by the Board of Supervisors. The consolidated quick and cash ratios remained considerably depressed, experiencing further declines from 2023 to reach 0.02 and 0.007 times, respectively. Heightened liquidity risk is indicated unless timely corrective actions are implemented. Although within acceptable bounds, the debt-to-equity ratio exhibited an increase from 1.66 times at the close of 2023 to 2.03 times at the close of 2024. Particular attention should be given to the elevated proportion of short-term loans within the total financial debt portfolio, warranting diligent monitoring.

During 2024, a tax reassessment and a penalty of VND 0.7 billion were incurred by EEMC as a result of inappropriate provisions pertaining to product warranties. While the scale is immaterial, the Company is expected to derive lessons from this issue, promptly revise legal compliance protocols, and harmonize provisions with operational activities.

Concerning the two fully-owned subsidiaries, both continue to display excessively elevated debt-to-equity ratios, with EDMC at 10.8 and Vinaelectro at 10.69. Should these levels persist without remediation, debt-servicing capabilities may be adversely affected, financial expenditures may be escalated, and the overall creditworthiness of the group may be compromised. The SB advocates for a financial restructuring strategy and stringent controls on expenditure and investment at the subsidiary level in the forthcoming year.

With regard to the activities undertaken by the BoD in 2024, 26 resolutions were issued, primarily concerning the endorsement of business strategies, investment in capital equipment, tactical adjustments in finance and senior staffing, and the execution of AGM resolutions.

Regarding the operations of the Executive Board in 2024, directives from the BoD were closely observed, cost-saving initiatives were advanced, new markets were actively pursued, the fulfillment of revenue and profit objectives mandated by the 2024 AGM was ensured, employee welfare was safeguarded, shareholder interests were protected, and the preservation of owner's equity was upheld.

III. Assessment of Coordination with BoD and Executive Board

The SB fostered a collaborative relationship with both the BoD and the Executive Board. Conditions conducive to the SB's involvement in meetings, the prompt delivery of documentation, and the assignment of personnel to collaborative projects were established by the BoD and Executive Board.

The SB's yearly work plan was formally communicated to the BoD and Executive Board. Production and business operations were overseen by the SB in conjunction with pertinent departments. Input was actively solicited during the drafting of inspection reports to guarantee impartiality and prudence before their publication. All conclusions were conveyed to the BoD and Executive Board for subsequent measures. Corrective actions were accepted and put into practice by EEMC's leadership, and progress was tracked by the SB until their conclusion.

In conclusion, effective coordination was maintained among the SB, BoD, Executive Board, and functional departments.

IV. Supervisory Plan for 2025

In accordance with the Law on Enterprises, the EEMC Charter, and the 2025 AGM Resolution, the SB will focus on the following tasks in 2025:

1. Execute responsibilities as per the SB's internal regulations

2. Monitor EEMC's production and business activities, as well as those of its subsidiaries, to support effective supervision and business efficiency.

3. Implement the SB's 2025 Work Plan (attached), which may be adjusted based on actual business conditions

V. Recommendations of the Supervisory Board

1. EEMC should proactively reduce inventories, balance procurement cycles, and accelerate the collection of overdue receivables—especially those exceeding 3 years and payables from EVN-affiliated subsidiaries.

2. The current financial regulation lacks criteria for assessing subsidiaries' financial health before EEMC provides loan guarantees. The SB recommends EEMC develop and apply financial safety indicators, such as a maximum debt-to-equity ratio of 3 times. A debt restructuring plan aligned with cash flows should also be established. In addition, EEMC must stay updated on changes in corporate governance regulations to revise internal rules accordingly.

3. Invoices deemed high-risk should be promptly excluded from cost calculations; legal updates must be continuously monitored to minimize tax penalties.

4. Continue the implementation and completion of the SAP system; simultaneously review the accounting policy framework and asset management practices to ensure compliance with prevailing standards and regulations.

5. EEMC should design and implement a capital increase roadmap and complete related legal procedures during 2025.

This concludes the report of the Supervisory Board. Respectfully submitted to the General Meeting of Shareholders./.
