EEMC - Electrical Equipment Designing and Manufacturing Company Limited	7.811.835.518	7.811.835.518	100%	100%
Total	16.232.483.898	16.232.483.898	100%	100%

1.2 Business field

Industrial production, services.

1.3 Operating industries and principal activities

The business activities of the Corporation include:

- Production of transformers, electrical wires, supplies, materials, electrical engineering and electrical equipment products up to 500 kV;
- Installation, calibration, maintenance, repair, overhaul, and renovation of electrical equipment up to 500kV, thermomechanical and hydromechanical equipment up to 250 ata;
- Electrical testing, manufacturing, supplying equipment, and consulting on the construction of high voltage electrical laboratories; and
- Import and export business of all kinds of materials, equipment and other goods for industrial and civil construction.

1.4 Normal production and business cycle

The Corporation's normal production and business cycle is carried out for a time period of 12 months.

2. ACCOUNTING CONVENTION FOR THE SEPARATE FINANCIAL STATEMENT

2.1 Accounting convention

The accompanying separate financial statements, expressed in Vietnam Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting.

These separate financial statements do not include figures of subsidiaries and associates controlled by the Corporation as at 30 June 2026

In addition to these separate financial statements, the Corporation prepares the consolidated financial statements encompassing the Corporation and its subsidiaries (hereinafter referred to as the “Group”). These separate financial statements should be read together with the Corporation’s consolidated financial statements for year ended 31 December 2024 for comprehensive information about the financial position as well as results of operations and cash flows of the Corporation during the year.

2.2 Accounting period

The Quarter 2 accounting period of the Corporation begins on 01 April and ends on 30 June.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies, which have been adopted by the Corporation in the preparation of these separate financial statements, are as follows:

3.1 Compliance with accounting standards and accounting regime

The Corporation has complied with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting.

3.2 Estimates

The preparation of separate financial statements in conformity with Vietnamese Accounting Standards requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the separate financial statements and the reported amounts of revenues and expenses during 2th quarter of the year.

3.3 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term or highly liquid investments. Highly liquid investments are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.4 Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

The provision for doubtful debts is the estimated loss due to customer non-payment for receivables at the end of the accounting period. The provision for doubtful debts is made in accordance with the guidance in Circular No. 48/2019/TT-BTC dated 08 August 2019 by the Ministry of Finance and the assessment of the Board of Management based on the ability to collect these receivables at the financial statements preparing date.

Increases, decreases in provision for doubtful debts are recorded in administration expenses on the Income Statement.

3.5 Inventories

Inventories are stated at the lower of cost and net realisable value.

Cost of inventories is determined using the weighted average cost method and comprises cost of purchases, processing and other directly attributable expense and where applicable, in bringing the inventories to their present location and condition. In the case of manufactured products, cost includes all direct materials, direct labor and those overheads based on the normal course of business.

Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

Provisions are made for obsolete, slow-moving and defective inventories in accordance with the guidance in Circular No. 48/2019/TT-BTC dated 8 August 2019 of the Ministry of Finance.

Increases, decreases in Provision for devaluation of inventories are recorded in cost of sales on the Income Statement.

3.6 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working conditions and locations for their intended use.

The cost of tangible fixed assets constructed by contractors includes the completed and handed over amount, other directly related and registration tax (if any).

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives, in accordance with Circular No. 45/2013/TT-BTC dated 25 April 2013 and Circular No. 147/2016/TT-BTC dated 13 October 2016 of the Ministry of Finance on the Management, use and depreciation of fixed assets. The estimated useful life of specific fixed assets is as follows:

Fixed assets	Useful life (Years)
Buildings and structures	05 - 50
Machinery and equipment	03 - 20
Means of transportation	06 - 10
Office equipment	03 - 10

3.7 Construction in progress

Properties in the course of construction for production, rental or administrative purposes or for other purposes are carried at cost. These costs include service costs and related interest costs and are accounted for in accordance with the Corporation's accounting policy. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use.

3.8 Profit dividend

Net profit after corporate income tax can be distributed to shareholders after being approved by the General Meeting of Shareholders and after made all provision funds are made in accordance with the Corporation's Charter and the provisions of Vietnamese law.

3.9 Revenue recognition

Revenue from sale of goods

Revenue is recognized when the transaction can be measured reliably and it is probable that the economic benefits associated with the transaction shall flow to the Corporation. Revenue from sales is recognized when the goods are delivered and ownership is transferred to the buyer.

Revenue from services

Revenue is recognized when the outcome of a transaction can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the Corporation. Revenue from the provision of services is recognized by reference to the stage of completion of each transaction at the balance sheet date.

Other revenue

Interest income is accrued on a time basis, by reference to the principal outstanding and at the applicable interest rate

Dividend income from investments is recognised when the Company's right to receive payment has been established.

3.10 Foreign currency recognition

The Corporation accounts for foreign exchange differences in accordance with the guidance set out in Vietnamese Accounting Standard No. 10 (VAS 10), *The Effects of Changes in Foreign Exchange Rates*, and Circular No. 99/2025/TT-BTC issued by the Ministry of Finance on 27 October 2025. Accordingly, transactions arising in foreign currencies are translated at the actual exchange rates prevailing on the transaction dates.

At the end of the accounting period, monetary items denominated in foreign currencies are retranslated at the average exchange rate (i.e. the average of the bank transfer buying rate and the bank transfer selling rate) quoted by the commercial bank with which the Corporation regularly conducts transactions, as at the balance sheet date, on the following basis:

All exchange differences arising are recognized in the Statement of Profit or Loss. Exchange gains arising from the retranslation of foreign currency-denominated monetary items at the end of the accounting period shall not be used for profit distribution.

3.11 Borrowing expenses

Borrowing expenses directly attributable to the acquisition, construction, or production of qualifying assets that require a substantial period to be ready for use or sale are capitalized as part of the asset's cost until the asset is substantially ready for its intended use or sale. Income from the temporary investment of such borrowings is offset against the asset's cost. Other borrowing expenses are expensed in the interim separate income statement as incurred.

3.12 Earnings per share

Basic earnings per share is calculated by dividing the Corporation's after-tax profit after allocation the bonus and welfare funds by the average total number of common shares during the period, excluding shares repurchased by the Corporation and held as treasury shares.

3.13 Taxation

Current corporate income tax

Income tax assets and liabilities for the current and prior years are measured based on the amounts expected to be collected from or paid to the Tax Authority, based on the tax rates and laws enacted by the reporting period's end. In 2026, the Corporation is obliged to pay a Corporate Income Tax (CIT) at the rate of 20% on profits from all business activities.

The determination of the tax currently payable is based on the current interpretation of tax regulations. These regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Value Added Tax

Value Added Tax of goods and services provided by the Corporation is subject to the following tax rates:

- | | |
|--------------------------------|-------------|
| • Sale of transformer products | 8% |
| • Repair services | 8% |
| • Transportation services | 8% |
| • Sales of goods and materials | 8% hoặc 10% |

Other tax

Other taxes are imposed in compliance with Vietnam's prevailing tax regulations.

3.14 FINANCIAL INSTRUMENTS

Financial Instruments - Initial Recognition and Presentation

Financial Assets

According to Circular 210/2009/TT-BTC, financial assets are classified appropriately for disclosure purposes in the interim financial statements into financial assets measured at fair value through profit or loss, lending

and receivables, held-to-maturity investments, and available-for-sale financial assets. The Corporation decides on the classification of these financial assets upon initial recognition.

At the date of initial recognition, financial assets are determined at their cost, including directly attributable transaction costs related to their issuance. The Corporation's financial assets include cash and short-term deposits, accounts receivable from customers and others, lending, as well as listed and unlisted financial instruments.

Financial liabilities

Financial liabilities, as defined under Circular 210/2009/TT-BTC for disclosure purposes in the financial statements, are appropriately classified into financial liabilities measured at fair value through profit or loss and financial liabilities measured at amortized cost. The Corporation determines the classification of these financial liabilities upon initial recognition.

All financial liabilities are initially recognized at cost, including directly attributable transaction costs related to their issuance. The Corporation's financial liabilities include accounts payable to suppliers and others, debts and loans, as well as derivative financial instruments.

Subsequent Measurement

Currently, there is no requirement to remeasure the value of financial instruments after initial recognition.

Offsetting Financial Instruments

Financial assets and liabilities are offset and presented at their net amount in the financial statements if, and only if, the Corporation has a legally enforceable right to offset the recognized amounts and intends to settle on a net basis or realize the asset and settle the liability simultaneously.

6. OTHER INFORMATION

6.1 Financial instruments

6.1.1 Types of financial instruments

The details of the significant accounting policies and methods applied by the Corporation (including the criteria for recognition, the basis for determining value, and the basis for recognizing income and expenses) for each type of financial asset, liability, and equity instrument are presented in Note 3.13 "Financial instruments."

The Corporation has not assessed the fair value of financial assets and liabilities as at the balance sheet date, as Circular 210 and other relevant prevailing regulations do not provide comprehensive guidance on determining the fair value of these financial assets and liabilities. While Circular 210 refers to the application of International Financial Reporting Standards ("IFRS") on presentation and disclosures of financial instruments, it did not adopt the equivalent guidance for the recognition and measurement of financial instruments, including application of fair value, in accordance with IFRS.

6.1.2 Financial risk management objectives

The Corporation's financial liabilities primarily consist of accounts payable to suppliers, advances from customers, and other payables. The main purpose of these financial liabilities is to raise funds to serve the Corporation's operations. The Corporation also has trade receivables, prepayments to suppliers, other receivables, cash, deposits, and term deposits, all of which arise directly from its business activities.

In the course of its operations, the Corporation is exposed to market risk, credit risk, and liquidity risk. The Corporation does not implement hedging measures for these risks due to the absence of a market for financial instruments. The Board of Management reviews and agrees to apply the following risk management policies:

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market prices encompass three types of risks: interest rate risk, currency risk, and other price risks. The Corporation does not implement measures to hedge these risks due to the absence of a market for financial instruments.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. During the period ended 30 June 2026, the Corporation was not exposed to significant interest rate risk since the majority of its financial assets and liabilities have fixed interest rates.

Foreign currency risk

Foreign currency risk refers to the potential fluctuations in the fair value or future cash flows of a financial instrument caused by changes in exchange rates. This risk primarily arises from the Corporation's operations, including certain expenses, revenues, and borrowings denominated in currencies other than its functional currency.

Credit risk

Credit risk arises when a customer or counterparty fails to fulfill their contractual obligations, leading to financial losses for the Corporation. The Corporation implements appropriate credit policies and regularly monitors its financial position to assess exposure to credit risk. As of the end of the reporting period, the Corporation identified and evaluated significant credit risks from customers and counterparties. Credit risk is partially reflected in the provision for doubtful debts, as detailed in Note 4.2, "Short-term Trade Receivables." To mitigate these risks, the Corporation enforces suitable credit policies, actively follows up on receivables, and implements solutions to recover outstanding amounts.

Liquidity Risk

Liquidity risk refers to the risk that the Corporation may encounter difficulties in fulfilling its financial obligations due to insufficient funds. The Corporation's liquidity risk primarily stems from the differing maturity profiles of its financial assets and liabilities.

To manage liquidity risk, the Corporation maintains an adequate level of cash, cash equivalents, and bank borrowings, as determined by the Board of Management, ensuring sufficient liquidity to meet operational needs and mitigate the impact of cash flow fluctuations. This strategy helps to reduce the Corporation's liquidity risk, which is currently assessed as low.

The table below summarizes the Corporation's financial liabilities based on expected contractual payments, presented on an undiscounted basis.

6.2 Related Parties Transactions and Balances

Related Parties: A party is considered related if it has the ability to control or exert significant influence over another party in making decisions regarding policies and operations.

In this regard, the related parties of the Corporation include companies within the Vietnam Electricity (EVN), shareholders, as well as members of the Board of Directors and Executive Board of the Corporation.

6.3 Subsequent Events

There are no subsequent events that occurred after the end of the accounting period that require adjustment or disclosure in the Company's separate financial statements.

6.4 Comparative Figures

Comparative Figure are the figures of the Corporation's separate financial statements for the Quarter 2 year 2026.

Tổng công ty xin giải trình với Sở Giao dịch Chứng khoán Hà Nội số liệu trên
Báo cáo tài chính quý 2 năm 2026 như sau:

The Corporation would like to provide the Hanoi Stock Exchange with an
explanation of the figures in the financial statements for quarter 2 of 2026 as follows:

Chỉ tiêu Item	Năm/Year 2026 (ĐVT: đồng) (Unit: dong)	Năm/Year 2025 (ĐVT: đồng) (Unit: dong)	Chênh lệch năm 2026 so với năm 2025/Difference 2026 vs 2025	
			Giá trị/Value ± (ĐVT: đồng) (Unit: dong)	Tỷ lệ/ Ratio
LNST TNDN trên BCTC riêng The after-tax profit on the separate financial statement	44.235.646.297	68.607.301.702	-24.371.655.405	-35,5%
LNST TNDN trên BCTC hợp nhất The after-tax profit on the consolidated financial statement	50.048.116.880	66.154.514.535	-16.106.397.655	-24,3%

Nguyên nhân chênh lệch/Reason for the difference:

So với cùng kỳ năm 2025, trong Quý II năm 2026, chi phí lãi vay tăng cao chủ yếu do mặt bằng lãi suất vay trong Quý II/2026 tăng mạnh so với cùng kỳ năm trước. Cụ thể, chi phí lãi vay tăng 91,9% trên báo cáo tài chính riêng và tăng 93,6% trên báo cáo tài chính hợp nhất.

Bên cạnh đó, tình hình xung đột chính trị tiếp tục diễn biến phức tạp, làm giá nguyên vật liệu và chi phí logistics tăng, dẫn đến chi phí sản xuất kinh doanh gia tăng đáng kể. Tổng chi phí, không bao gồm chi phí tài chính, tăng 12,8% trên báo cáo tài chính riêng và tăng 3,2% trên báo cáo tài chính hợp nhất so với cùng kỳ năm 2025.

Compared with the same period in 2025, interest expenses in the second quarter of 2026 increased significantly, mainly due to a sharp rise in borrowing interest rates in Q2 2026 compared with the same period of the previous year. Specifically, interest expenses increased by 91.9% in the separate financial statements and by 93.6% in the consolidated financial statements. Specifically, interest expenses increased by 91.9% in the separate financial statements and by 93.6% in the consolidated financial statements.

In addition, ongoing geopolitical conflicts continued to develop in a complex manner, driving up raw material prices and logistics costs, which resulted in a significant increase in production and business expenses. Total expenses, excluding financial expenses, increased by 12.8% in the separate financial statements and by 3.2% in the consolidated financial statements compared with the same period in 2025.

Trên đây là giải trình nguyên nhân chính dẫn đến biến động giảm lợi nhuận sau thuế quý 2 năm 2026 so với cùng kỳ năm trước trên Báo cáo tài chính riêng quý 2 năm 2026 của Tổng công ty.

The above provides an explanation of the main reasons for the decrease in profit after tax in the second quarter of 2026 compared with the same period of the previous year, as presented in the Corporation's separate financial statements for Q2 2026.

Trân trọng!

Sincerely./.
